

Digital platform proposal

Mandir Triloki Dhaam Eindhoven

Prepared for the board of Stichting Senskaar Triloki Dhaam
Draft for discussion · October 2026 · All amounts in euros, excluding VAT

At a glance

	Phase 1: Website basics	Phase 2: Community platform
Goal	Right information, Dutch and English, live before Navratri (10 October 2026)	Webshop, appointments, payments, social connections, automations
Traditional cost	€10,500 (~140 hours)	€17,250 (~230 hours)
Our price	€3,000	€5,200 (indicative, quoted after Phase 1)
Discount	€7,500 (71%)	€12,050 (70%)
Ongoing	€90 per month , everything included	

The discount is measured against what the same work costs when delivered the traditional way, at a reference rate of €75 per hour. The work is built with AI assistance, which reduces our actual effort, and the temple receives the benefit as a large community discount.

Phase 1: Website basics

Deliverables

- New bilingual website (Dutch and English) with a language switcher on every page.
- One correct source for the facts: opening hours, address, contact, service times.
- Weekly services and the Sunday service explained for first-time visitors.
- The annual programme as real pages and a calendar, not a picture: one permanent page per festival, a subscribable calendar feed, search-engine event markup.
- The twelve ceremonies, each with its own page (content supplied by the pandit).
- Mantras, aartis, scriptures and teachings recovered from the legacy site (39,000 characters), edited and translated.
- Courses page with dates.
- Social loop: links from the site to the temple's accounts, and shareable festival pages for posts and bio links.
- Redirects for the 82 legacy pages, sitemap, and the domain trilokidhaam.nl kept.
- Hosting, launch and handover documentation.

Price

	Hours	Cost at €75/h
Traditional delivery	~140 h	€10,500
With AI-assisted build (actual effort)	~55 h	€4,125
Discount against traditional cost		-€7,500 (71%)
Community price		€3,000

Payment: 50% on approval, 50% at launch.

Monthly maintenance: €90 per month, everything included

- Hosting, domain renewal and security updates.
- Up to 3 hours a month of content changes and translation of updates.
- Yearly refresh of the annual programme and calendar.
- Bug fixes and monitoring.
- Unused hours do not roll over. Larger requests are quoted first.

Assumptions

- The temple supplies and approves the pandit's content by an agreed date.
- One revision round on translations.
- The open decisions in the requirements document (section 12) are made in time. Launch on 10 October depends on them.

Phase 2: Community platform (indicative)

Quoted in detail after Phase 1 is live. Modules can be bought separately.

Module	What it includes	Traditional	AI-assisted	Price
Webshop	Prasad, books, devotional items, orders and stock	~60 h €4,500	~25 h	€1,400
Appointments	Booking a pandit for ceremonies, availability, confirmations	~50 h €3,750	~20 h	€1,100
Payments	iDEAL and cards for donations and shop, receipts, ANBI-ready if applicable	~30 h €2,250	~12 h	€700
Social media connections	Account feeds on the site, posts from the programme, links back to the site	~40 h €3,000	~16 h	€900
Automations	Course sign-up, reminders, festival announcements, volunteer flow	~50 h €3,750	~20 h	€1,100
Total		~230 h €17,250	~93 h €6,975	€5,200

Discount against traditional cost: **€12,050 (70%)**.

Not included

- Payment-provider fees, for example iDEAL transaction fees.
- Any paid third-party booking or messaging tools.
- Legal or tax advice for selling goods (the temple should confirm KvK and tax questions before opening a webshop).

Next step

Approve Phase 1 and confirm the decisions in section 12 of the requirements document, so the site can go live on Saturday 10 October 2026, the day before Shardiya Navratri.
